

Annex B1 - Product environmental attributes Imaging equipment

The declaration may be published only when all rows and/or fields marked with * are filled-in (n.a. for not applicable). Additional information regarding each item may be found under P15.

Brand *	Kodak	Logo
Company name *	Kodak Alaris Holdings Limited	
Contact information *	Dr Greg Batts	Kodak
e-mail address	gregory.n.batts@kodakalaris.com	
Internet site *	www.kodakalaris.com	
Additional information	The Kodak S2060w Scanner was launched in October 2020 by K upgrading project. Kodak Alaris is a business unit of the Kodak company registered in the United Kingdom offering a wide rang departmental to production models. The parent company was f Eastman Kodak Company. In January 2020 the Buyers Laborate independent evaluator of document imaging hardware, software Alaris won their coveted 2020 Scanner Line of the Year award fo once a year, this award recognises the vendor whose product li BLI's rigorous laboratory evaluations.	k Alaris Holdings Limited parent e of scanners from desktop, formed in 2013 as a spin-off from the ory (BLI), the world's leading e, and services, announced that Kodak for the fourth time in five years. Given

	(based on product specification or test results based obtained from sample testing), that the product nts given in this declaration.
Type of product *	Scanner
Commercial name *	Kodak
Model number *	S2060w
Issue date *	1 st November 2020
Intended market *	🗌 Global 🛛 Europe 🔲 Asia, Pacific & Japan 🗌 Americas 🗌 Other
Additional information	The Kodak S2000 Series Scanners enhance productivity by handling more of the work traditionally done by people, computers and mobile devices. All the S2000 Scanners are compact, efficient, accurate, and reliable to help do more with information and meet the EPEAT Ecolabel Gold Criteria and Energy Star. Compliance testing for CE marking was carried out on this scanner at one of the external Test Houses we use in the most challenging arrangement and the EU Declaration of Conformity (DoC) issued accordingly. Annex-B1 is more appropriate than B2 as we are declaring the environmental attributes of the scanner to process images from hard copies in a variety of digital formats.

This is an uncontrolled copy when in printed form. Please refer to the contact information for the latest version.

About Annex B1

Annex B1 reflects Product environmental attributes relevant for Imaging products. The following items from the ECMA-370 Main body are not shown in the template: P9.1 PTEC, ETEC and display resolution

P12.1-P12.2 Ergonomic requirements.

Issue date *	1 st November 2020		Kodak

Product	Product environmental attributes - Legal requirements				
Item		Yes	No	n.a.	
P1	Hazardous substances and preparations				
P1.1*	Products do comply with the current European RoHS Directive. (See legal reference and NOTE B1)	Х			
P1.2*	Products do not contain Asbestos (see legal reference). Comment: Legal reference has no maximum concentration value.	Х			
P1.3*	Products do not contain Ozone Depleting Substances: Chlorofluorocarbons (CFC),	Х			
1 1.0	hydrobromofluorocarbons (HBFC), hydrochlorofluorcarbons (HCFC), Halons, carbontetrachloride, 1,1,1-	~			
	trichloroethane, methyl bromide (see legal reference). Comment: Legal reference has no maximum				
	concentration values.				
P1.4*	Products do not contain more than; 0,005% polychlorinated biphenyl (PCB), 0,005% polychlorinated terphenyl (PCT) in preparations (see legal reference).	Х			
P1.5*	Products do not contain more than 0,1% short chain chloroparaffins (SCCP) with 10-13 carbon atoms in the chain containing at least 48% per mass of chlorine in the SCCP (see legal reference).	e X			
P1.6*	Parts with direct and prolonged skin contact do not release nickel in concentrations above 0,5 µg/cm ² /week	Х			
	(see legal reference).				
	Comment: Max limit in legal reference when tested according to EN1811:2011-5.				
P1.7*	REACH Article 33 information about substances in articles is available at (add URL or mail contact):	Х			
	gregory.n.batts@kodakalaris.com		_	_	
P2	Batteries				
P2.1*	If the product contains a battery or an accumulator, the battery/accumulator is labeled with the disposal symbol. Information on proper disposal is provided in user manual. (See legal reference)			Х	
P2.2*	Batteries or accumulators do not contain more than 0,0005% of mercury or 0,002% of cadmium. (See legal			Х	
	reference)				
P2.3*	Batteries and accumulators are readily removable. (See legal reference)			Х	
P3	Conformity verification & Eco design (ErP)				
P3.1*	The product is CE-marked to show conformance with applicable legal requirements (see legal reference).	Х			
	The Declaration of Conformity can be requested at (add link or e-mail address):		_	_	
	www.kodakalaris.com/company/environment-health-and-safety				
P3.2*	The product complies with the applicable Eco design Requirements for Energy-Related Products, (see legal reference).	Х			
	Required information is; given in item P15 or added to this document,	Х			
	X available at (add URL):		_	_	
	www.kodakalaris.com/company/environment-health-and-safety				
P4	Consumable materials				
P4.1*	If a photo conductor (drum, belt etc.) is used in the product, it does not contain cadmium at a level greater than 0,01% (see legal reference and NOTE B1).			X	
P4.2*	If ink/toner is used in the product, it does not contain cadmium at a level greater than 0,1% by weight (see legal reference)			Х	
P4.3*	If the ink/toner formulation/preparation is classified as hazardous or contains a substance for which there			Х	
	are Community workplace exposure limits, the product/packaging is adequately labeled according to	_			
	applicable regulations and a Safety Data Sheet (SDS) in accordance with these requirements is available				
	(see legal reference).				
P5	Product packaging	X			
P5.1*	Packaging and packaging components do not contain more than 0,01% lead, mercury, cadmium and hexavalent chromium by weight of these together.	Х			
P5.2*	The packaging materials are marked with abbreviations and numbers indicating the nature of the material(s used (see legal reference).) X			
P5.3*	The product packaging material is free from ozone depleting substances as specified in the Montreal	Х			
	Protocol (see legal reference).				
	Comment: Legal reference has no maximum concentration values.				
P6	Treatment information				
P6.1*	Information for recyclers/treatment facilities is available (see legal reference).	Х			

NOTE B1 Restriction applies to the homogeneous material, unless other specified and expressed in weight %. Stating "Yes" means that the product is compliant with the mandatory requirements.

ltem	*=mandatory to fill in. Additional information regarding each item may be found under P14.	Yes	No	n.a.	
77	Design Disassembly, recycling				
² 7.1*	Parts that have to be treated separately are easily separable	Х	- r	-	
P7.2*	Plastic materials in covers/housing have no surface coating.	X			늼
7.3*	Plastic parts > 100 g consist of one material or of easily separable materials.	X			╘
P7.4*	Plastic parts > 25 g have material codes according to ISO 11469 referring ISO 1043-4.	X			늼
P7.5	Plastic parts are free from metal inlays or have inlays that can be removed with commonly available tools.	X			님
P7.6*	Labels are easily separable. (This requirement does not apply to safety/regulatory labels).	X			늼
1.0	Product lifetime				
² 7.7*	Upgrading can be done e.g. with processor, memory, cards or drives	Х		1	
P7.8*	Upgrading can be done using commonly available tools	X			늼
P7.9	Spare parts are available after end of production for: 5 years	~			늼
P7.10	Service is available after end of production for: 5 years				늼
1.10	Material and substance requirements				
P7.11*	Product cover/housing material type (e.g. plastics, metal, aluminum):				
7.11	Material type: ABS Material type: Material type:				
P7.12	Insulation materials of external electrical cables are PVC free.	Х			
P7.13	Insulation materials of internal electrical cables are PVC free.	Х	Ē	1	Π
P7.14	External plastic casing/cover parts > 25 g contain no more than 0,1% weight (1000 ppm) bromine and 0,1% weight (1000 ppm) chlorine attributable to brominated flame retardants, chlorinated flame retardants, and polyvinyl chloride or 0,3% weight (3000 ppm) bromine and 0,3% weight (3000 ppm) chlorine in parts containing more than 25% post-consumer recycled content.	Х	C]	
P7.15	Printed circuit boards, PCBs (without components) are low halogen: all PCBs > 25 g are low halogen as defined in IEC 61249-2-21. (See NOTE B2)		Х	(
P7.16	Flame retarded plastic parts > 25 g in covers / housings are marked according ISO 1043-4: Marking:				Х
P7.17	Alt. 1: Chemical specifications of flame retardants in printed circuit boards > 25 g (without components): TBBPA (additive) TBBPA (reactive) (See NOTE B3), Other; chemical name: , CAS #: <u>Alt. 2:</u> Chemical specifications of flame retardants in printed circuit boards (without components) > 25 g		C]	x
	according ISO 1043-4:		X		
P7.18	Alt. 1: Flame retarded plastic parts > 25 g contain the following flame retardant substances/preparations in concentrations above 0,1%: 1. Chemical name: CAS #: (See NOTE B4) 2. Chemical name: CAS #: " 3. Chemical name: CAS #: "		C		X
	<u>Alt. 2:</u> Chemical specifications of flame retardants in plastic parts > 25 g according ISO 1043-4:)		×	(
97.19	In plastic parts > 25 g, flame retardant substances/preparations above 0,1% are used which have been assigned the following Risk phrases; and Hazard statements: The source(s) for these classifications is/are found at (add URL(s)): , (See NOTE B5)]	Х
P7.20*	Postconsumer recycled plastic material content is used in the product (See NOTE B6):	Х]	
	 If YES; at least one of the two alternatives below shall be answered; a) Of total plastic parts' weight > 25 g, the postconsumer recycled plastic material content (calculated as a percentage of total plastic by weight) is 16.1%. 		_		
	or				

GENERAL NOTE Standard references should direct to the latest version of a standard. If an older version of a standard is used, section P15 shall be used for explanation.

NOTE B3 and B4 A Guidance document on Chemical substances is available;

NOTE B2 IEC 61249-2-21 defines maximum limits of 900 ppm for each of the substances chlorine and bromine and a maximum limit of 1500ppm of these substances combined. The standard does not address fluorine, iodine and astatine which are included in the group of halogens.

see http://www.ecma-internationl.org/publications/standards/Ecma-370.htm.

NOTE B5 If a certain substance has been assigned a certain risk phrases / hazard statement in the referenced source, this does not necessarily mean the substance has been tested for all of the hazards referred to by a certain customer.

NOTE B6 Applies to a product containing plastic parts whose combined weight exceeds 100 g with the exception of printed circuit boards, cables, connectors and electronic components and bio-based plastic material.

	ct environmental attributes - Market requirements (concluded) Requirement met
P15	Additional information (See NOTE B11)
15.1	Kodak Alaris Holdings Limited has a well-established system for collecting all its electrical and electronic equipment, e.g. scanners, order stations, kiosks, monitors and printers, placed on the market in Europe and scanners in the USA. We have an extensive service organisation with excellent availability of spares such that we can upgrade scanners several times during their working lives to avoid the items becoming wastes too early. When the user no longer wants our scanners or has moved to a new model our End of Life (EoL) partners in the EEA countries collect and treat the equipment as WEEE.
15.2	The Kodak S2000 Series of Scanners all comply with the EPEAT EcoLabel Gold requirements which demonstrates our commitment to environmental issues. All our Scanners meet at least EPEAT Silver and in addition, all Kodak Alaris scanners have USA EPA Energy Star compliance and have energy saving features when not in operational mode.
15.3	This scanner is designed for use on a desk having a small physical footprint 31.2cm x 20.4cm (w x d) and is only 18.3cm high. It has a mass of 3.3kg
15.4	All our scanners are designed in-house under our global product stewardship ISO 14001:2015 Certified Environmental Management System. Furthermore, every Kodak Alaris scanner placed on the market is manufactured in ISO 14001:2015 and ISO 9001:2015 certified facilities.
	Please note that Kodak Alaris Holdings Limited (KAHL) makes no representations, guarantees, assurances or warranties whether express or implied, regarding the information contained in this document. All information provided by KAHL in this document is provided based on the supplier's knowledge available at the time of completion, and KAHL shall have no obligation to update such information. Some of the information provided here is approximate and provided for informational purposes only, since user operation can change some of the figures.
